

JAW CRUSHERS

CT Series

Engineers and Manufacturers of Washing, Vibrating and Crushing Equipment

Description

Trio's well engineered; highly efficient **CT Series Jaw Crushers** use the most current engineering knowledge available in jaw crusher design.

The units utilize pitched fixed jaw dies, and steeply aligned toggle seats to provide the most efficient nip angles. The resulting geometry yields a highly efficient and highly productive family of jaw crushers.

The hydraulically adjusted wedges contribute to an operator-friendly system that enables users to make quicker, easier adjustments to the machine's closed setting as different products are desired, or as the jaw dies wear.

Their fixed jaw dies have wrap-around design that protects the frame and eliminates the need for additional wedges. Side tensioning wedges provide a simple method for keeping the dies in the correct operating position. The cheek plates are kept in place through an easy to maintain bolt system.

The crushers are driven by extra large, overhead eccentric shafts seated in spherical, self aligning roller bearings.

Like all Trio products, this equipment is backed with the company's standard one-year warranty and continuing service commitment. The units are available exclusively through a number of value added retail distributors.

Distributed by:

Applications

- Primary and Secondary Hard Rock Crushing
- Mixed Demolition Debris
- Crushed or Broken Concrete
- Asphalt
- River Rock

Premium Features

- Fabricated, stress relieved steel base
- Rib-reinforced side plates
- Close-tolerance machined jaw plates and seating surfaces
- Reversible jaw plates
- Spherical, self aligning roller bearings
- Drop-forged, heat treated eccentric shafts
- Manual or hydraulic shim closed setting adjustments

Models/Sizes

- 10x30 - 12x52 - 30x42 - 42x54
- 10x40 - 20x36 - 32x54 - 48x64
- 10x48 - 24x36 - 36x48

Other Considerations

- One Year Warranty
- Quick Deliveries
- Off-the-shelf parts
- Nationwide distribution
- Superior Quality
- Low Price Guarantee
