

Belt-Way Scales

In Motion Weighing Solutions

Touchscreen Remote Display With Wireless Options

Real-Time Scale Data

Monitor one or multiple scales from your control room or dredge.

Enhanced Functionality

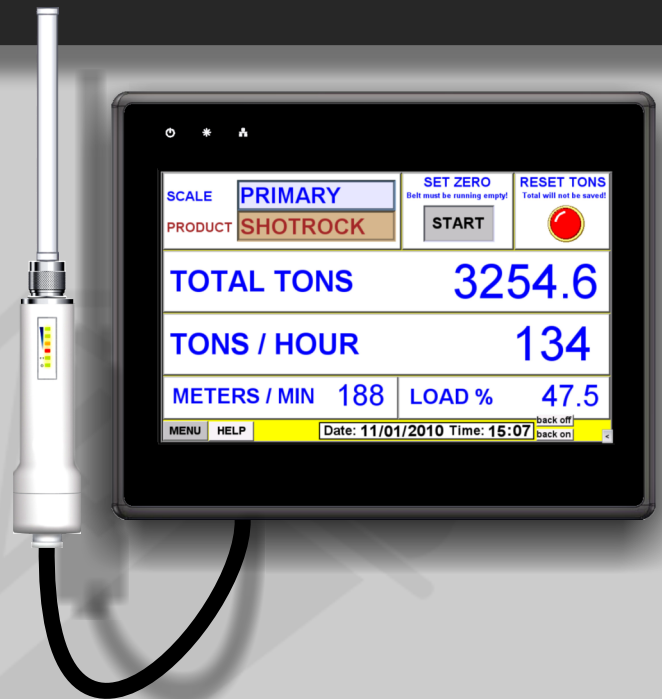

Reset totals or zero belts, one at a time, or simultaneously.

Wireless Options

Wireless connectivity is now more cost effective and reliable than ever. Users of portable crushing and screening equipment minimize tear down and setup time.

On-Board USB Drive

Log production data, and alerts for one or multiple scales automatically to the on-board USB drive. Save screenshots for any display at any time.

Belt-Way Integrator

Scale Data Where and When You Need It!

Contact your Belt-Way distributor directly, or give us a call to order the Touchscreen Remote Display.
