Monitoring Devices for Conveyor Systems

Product Overview

Keep a good thing going

Pull Rope Emergency Stop Switches

to stop conveyors at any location in emergencies in accordance to EN 620

- enclosures in aluminium, plastic or cast iron
- uni- and bidirectional installation of pull rope
- ATEX  II 2D – II 3 D
- enhanced temperature range to -40 °C (-40 °F)
- two-wire-fieldbus connection

Accessories for Stop Switches

required for assembling a pull rope system for Emergency Stop Switches

- pull rope of 3 and 5 mm diameter with red PVC coating
- tension springs, turnbuckles and rope clamps
- rope support eyebolts and accessories
- corrosion-resistant materials available

Belt Misalignment Switches

protect equipment by shutting down the conveyor when the belt mistracks

- enclosures in aluminium, plastic or cast iron
- pre-warning; switch off; latching / catch mechanism
- ATEX  II 2D – II 3 D
- enhanced temperature range to -40 °C (-40 °F)
- two-wire-fieldbus connection

Robust Limit Switches

for position monitoring

- enclosures in aluminium, plastic or cast iron
- various actuating levers, rods, trollers
- ATEX  II 2D – II 3 D

Speed Monitors

for monitoring the speed and rotation of conveyors

- pulse generators
- low-speed-detection, direction of rotation
- belt driven speed monitors
- ATEX  II 2D – II 3 D

Misalignment Switches for Bucket Elevators

for contact free monitoring of bucket travel

- for aluminium, mild steel and stainless steel
- switching distance up to 70 mm

Belt Monitoring

for detection of belt breakage

- separable switches
- installation material
